

## PRESS INFORMATION

May 2009

### **AURES unveils Odysseé Evolution,** the new dual-screen system version of the renowned integrated terminal by POSLIGNE®

*Runcorn (United Kingdom) – May 14. 2009 ;* **AURES Technologies**, the manufacturer of **POSLIGNE®** electronic point of sale terminals (EPoS), introduces **Odysseé Evolution**, a new version of the Odysseé integrated system, which features a dual screen device.

*The second screen, facing the customer, has been designed to program and display images, text, adverts and commercials - as well as informational content - for the attention of customers during cash desk operations.*

Adjustable, this tilting 8.4" display screen (22 x 17.5 cm overall) is located on the rear of the unit and connected to the system's motherboard, enabling real-time, effective communication to customers at retail outlets, leisure centres, bars, restaurants and hotels, for messages to have a direct, spontaneous impact.

**Odysseé Evolution** benefits from POSLIGNE®'s exclusive '**Clip'n Color**' system - a series of 9 interchangeable polycarbonate colour clips located on the device, which can match retail store brand image and visual identity.

Combining design style and high performance, **Odysseé Evolution** incorporates the very best in POS and Retail technology: 2.8 GHz Intel P4 processor, 1 to 2 GB of RAM, RAID 0/1, WI FI interface, SATA disk drives and more...

**POSLIGNE®**

EPOS TO MATCH YOUR STORE DECOR

**About the AURES Group**

Founded in 1989 and listed on Euronext Paris since 1999, the AURES Group manufactures EPoS Point of Sale terminals and related peripherals, which it markets under the POSLIGNE® brand.

Acclaimed for its reliability and performance, these PC-based, open-system hardware equipment, are designed to provide management and till functions in specialist food and non-food stores, mass retail outlets and the hotel and catering industry.

The AURES Group aims to be the most creative leader in this field of business, thanks to an unrivalled colourful design strategy.

POSLIGNE® systems' distribution is handled by the AURES head office in France, the Group's subsidiaries in the United Kingdom and Germany (set up in 2003 and late 2006 respectively) and a distributor network present in some forty countries.

*A third subsidiary, AURES USA Inc, was set up last March in Denver, Colorado.*
