

PRESS INFORMATION

Introducing the brand new AURES KRYSTAL, a modular, high-performance KIOSK solution with a lightweight design.

Runcorn - February 2022; KRYSTAL is a new range of self-check-out and multifunctional kiosks; versatile and modular, the solution is available in several configurations and can be integrated into all types of commercial environments, thanks to its multiple combinations.

Based on the **YUNO** touch system with a 15" screen (landscape) or 21" screen (landscape or portrait), **KRYSTAL** offers a wide range of options to satisfy a number of applications.

Its slim and elegant design is an asset for the **omni-channel** customer journey and the digitalisation of sales and service areas, even when space is at a premium.

- The **countertop** version (**MINI KRYSTAL**) is ultra-compact, ready to be simply placed on the sales desk or to be **integrated into your furniture**.
- In the **free standing** version, the kiosk is mounted on a **pedestal** (143cm high in total) and comes with an optional ground plate, for stabilisation **without any fixings**, if required.

- **Integration of the YUNO Kiosk system**

The **KRYSTAL** integrates scalable, robust and high-performance AURES OEM equipment and sub-systems, such as the **YUNO** system.

Its multi-touch capacitive projected touch panel (**PCAP**) enhances the customer experience with its bright and super responsive touch navigation.

It is **IP54** rated and resists liquid and residue splashes on the front panel, making it a suitable solution in fast food, take-away and food & beverage outlets.

- **Three different processors to choose from**

The **KRYSTAL** is available in **three different processors** (i5, i3 or J1900), depending on the specific needs of the operators in terms of software and application platforms.

- **ODP 444 Thermal Printer**

The **KRYSTAL** printing system is an **ODP 444** thermal printer developed and manufactured by AURES; it is embedded in the kiosk and prints tickets and receipts in 80mm width.

- **Payment System**

The **KRYSTAL** range allows the integration of several payment terminals: VX820 and P400 from VERIFONE, LANE 5000, LANE 3000 and IP 350 from INGENICO, as well as S300 from PAX.

Other peripherals can also be integrated (badge readers, RFID readers etc).

- **2D/1D Scanner**

Comes complete with an integrated **DATALOGIC 1500i** 2D scanner

- **Compact design**

The **KRYSTAL** kiosk has a compact design in either portrait or landscape allowing operators to offer several kiosks in the sales area. This improves customer service by reducing queue times and the need for too many cashiers. As it is effectively a “plug & play” system, it can be up and running in no time at all. It is available in grey or black; however bespoke options can be arranged.

- **A smoother, faster customer experience**

The **KRYSTAL** is a highly adaptable kiosk solution. For the use of ordering food and drinks, "click & collect", buying and selling assistance, queue management, subscriptions and loyalty and promotional programmes. In addition to traditional checkout queues, the **KRYSTAL** range will manage footfall at the point of sale; transactions will be quicker, queues reduced, bringing a significant improvement in the customer experience.

ETK (Easy to Konnect)

Associated to the new AURES **ETK** optional **Middleware** Solution, the **KRYSTAL** kiosk will adapt to all requirements of omni-channel retail and the digitalisation of the customer journey.
